

More than 800 outstanding candidates took part in the application process for the 2007 Daniels Scholarship. Each demonstrated character, integrity and an understanding that true success in life requires giving back to the community.

The Daniels Fund is honored to announce the 2007 Class of Daniels Scholars. We wish to offer our gratitude to the more than 150 Referral Agencies that nominated candidates for the scholarship. In addition we are grateful to the more than 500 volunteers who read scholarship applications and conducted interviews with candidates. Our program truly reflects a "community based" selection process.

We regret that we were not able to provide scholarships to all of our outstanding candidates. We hope that our process provided valuable information that will enable all of our candidates to achieve the dream of a college education.

Letters and information packets were mailed to all candidates on April 5. Please review the information carefully before contacting the Daniels Fund for more information.

Thank you for helping us honor the mission of Bill Daniels in "Making Life Better ... One Individual at a Time."
